STOP DIGGING FOR DATA. START DIGGING IN.

ANSWERS FOR EVERY TEAM MEMBER

How much valuable time do you waste searching through endless amounts of data across multiple customer systems and environments to find answers to your questions?

WITH LIONGARD, THERE'S NO MORE DIGGING FOR DATA.

Automating documentation means you can rely on it to be your system of record. Your team can trust that it's accurate and up-to-date. With access to a stream of information, MSPs can review historical changes, alert on *anything,* pinpoint metrics, and pull reports across customers and systems.

Empower every team member with the data they need, when they need it to get their jobs done right.

ONBOARDING
Quickly identify domain and license expiration for new customers.

BILLING
Save customers money by proactively finding unused or overlapping Office 365 licenses.

SECURITY
Audit multiple systems to ensure users are adhering to security policies.

SERVICE DESK
Save time and start solving tickets faster rather than digging for information.

SALES ASSESSMENTS
Gain client insight and differentiate your MSP.

DRIVE ACTION
THROUGHOUT YOUR MSP

OWNERS - increase margin by freeing up engineers, allowing you to scale and differentiate your MSP with the latest in automation, using proactive alerts to deliver on your promises to your customers.

SERVICE DESK - know what needs your attention immediately and lower your time to resolution when you set alerts for the data you want to monitor.

EVERYONE - realize added efficiency to your workday and reduce frustration, to make your job more enjoyable and productive.

SALES - demonstrate immediate value by identifying duplicate or unnecessary expenses within a prospect's system.

NOC & SOC ENGINEERS - worry less and work more efficiently with Liongard to set up alerts, monitor misconfigurations, and potential vulnerabilities for critical systems across the stack.
